Subject: Skinner Landfill Litigation

03/14/02 12:16 PM

Annette, this e-mail responds to your e-mail of last evening. It seems that we're working through the discovery issues satisfactorily, and I don't anticipate needing to bring anything to the court's attention. Mike is copying the three documents that I have requested, and the index of the administrative record. I've agreed to pay copying costs for those. If there are documents in the record that I'd like to obtain, I anticipate that a similar arrangement can be made for those. Also, I may be asking for copies of ground water sampling data at some future date. Mike has indicated that those would be made available upon request (subject to an agreement to pay copying costs, if necessary). Lastly, I'll include Craig M. in future e-mails.

Therefore, please enjoy your vacation without concern that I'll be knocking on Judge Weber's door anytime soon. Thanks for your continuing cooperation on these issues.

Dave N.
